## Our Products

### NBM (Natural Bitterness Masking Agent)

**1.NBM 100 Powder Natural Bitterness Masking Agent**  
(Brown Color Powder)

**2. NBM 500 Liquid Natural Bitterness Masking Agent**  
(Brown Color Liquid)

**3. NBM 700 Liquid Natural Bitterness Masking Agent**  
(Light Brown Color Liquid)

### MattCaff : Bitter masked Natural and synthetic caffeine with NBM

## NBM (Natural Bitterness Masking Agent)

1. **NBM 100 : Brown Powder**
2. **NBM 500 : Brown Liquid**
3. **NBM 700 : Light Brown Liquid**  
(Natural Bitterness Masking Agent)

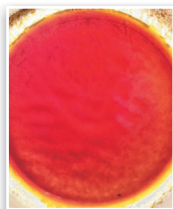

Natural Bitterness Masking Agent (NBM) is extracted from Natural ground earth herb. It's 13 step extraction process with higher level technology developed by SYD Products.

**NBM 100** is brown color powder with very slight herbal aroma.

**NBM 500** is brown color liquid with herbal aroma.

**NBM 700** is light brown liquid with slight herbal aroma

- All NBM is water soluble and its slightly acidic PH value.
- It's completely natural herbal extract make it very useful for who wants their product 100% natural.
- No hazards chemicals are use in extraction of ALL NBM.
- All NBM are not changing characteristics of product it just masking taste.

## MattCaff

### Matt Caff (Synthetic Caffeine or Natural Caffeine)

Matt Caff is NBM+ Caffeine. Caffeine has its bad taste. It has very bitter and after taste also. NBM can cover that both taste. NBM can mask caffeine taste so good that there will be no need of adding more sugar or any kind of harmful sweetener to cover it.

- We can make product without sugar with MattCaff.
- There will be no change in effect of caffeine.

## Stevia with Natural Bitterness Masking

As of now there are so many parts of stevia extracts. Like Reb A, Reb M, stevioside etc. In matter all stevia extract has after taste, some has very higher and some lower. Scientist finding way to cover it.

But we have good news for you all stevia manufacturer. Now NBM can solve all after taste problems. By adding different amount of NBM in different extract we can cover after taste and make it taste like sugar (In terms of after taste). There will be slight difference in sweetness, not huge. Just like miracle all after taste is gone. Stevia extract is good but with NBM we can make stevia BEST.

- SYD Products offer co- granulation of NBM and stevia extract at your production unit.
- No need to worries about blending and all.
- Our technical team comes at your place and give you knowledge of Co-Granulation.

## NBM + Alcoholic Beverages

Alcoholic drinks with NBM make it smooth and less bitter taste to no bitterness. Also it can cover 50% of after drinking aroma. It makes drink so smooth that people drink like water without sensing burning on throat. By adding different percentage of NBM in alcoholic drinks we can make tons of flavour. For making flavoured alcoholic drinks NBM is miracle products.

- It gives us 100% result of flavour in drinks after adding NBM.
- It's completely natural herbal extract which makes it very useful for people who wants their product 100% natural.
- In wine NBM works like butter, making smooth and perfect flavour results.
- Beer industries can make beer more stronger without changing taste.

## Other Use of NBM Is

**Alcoholic  
Beverages**

**Caffeine**

**Nutraceutical  
Products**

**Food**

**Tea**

**Stevia**

**Non Alcoholic  
Beverages**

**Pharma  
Products**

**Natural  
Extract**
